IDENTIFIERS Hawaii

ABSTRACT

This report examines fall 1976 grade distributions in the Hawaii community colleges and compares them with those of previous semesters. Analysis of data for a total of 1,816 courses and 80,705 grades revealed: (1) the average grade in fall 1976 was 2.8, compared to 2.9 and 3.0 in previous semesters; (2) the credits-earned rate was 70%, 1% lower than the previous two semesters but higher than the 68% noted for fall 1974; (3) credits-earned rates were higher for vocational courses than for general education courses, consistent with patterns in earlier semesters; (4) 2,292 credit/no-credit grades were given, comprising about 3% of all grades compared to 4% in the previous semesters; (5) the percentage of "W" (withdrawal) designations was 9%, compared to 10% the previous spring and 15% in fall 1974; (6) "N" (no-credit) grades comprised 16% of the grades in transfer courses compared to a rate of 11%-14% in the previous semesters; and (7) liberal arts majors earned higher grade point averages than did vocational majors. Tables of academic grade data are included and provide grade distributions and averages by college, academic division, major, and comparative data on grade point averages for the five semesters fall 1974-fall 1976 by college, major, and educational objective (degree objective). GRADE DISTRIBUTIONS
COMMUNITY COLLEGES
FALL 1976

Introduction

Expressed in the current literature on higher education are numerous concerns about grading practices in colleges and universities throughout the nation. Data included in this report on grade distributions provide information which may be helpful in examining campus grading practices and in planning and assessing academic programs.

Source

Computer reports 2528 and 2529 were used as the source documents for this report. (These reports are on file in the registrar's office at each campus.)

Highlights

Tables I and II: Distribution of Grades and Average Grades Assigned

1. Community college totals for Fall 1976 show:

   a. An average grade of 2.8, compared to 2.9 and 3.0 in previous semesters.

   b. A credits-earned rate of 70 percent, 1 percent lower than the previous two semesters but higher than the 68 percent noted for Fall 1974. As in previous semesters:

      (1) credits-earned rates were higher for vocational courses (75 percent) than for general education courses (68 percent);

      (2) rates ranged from 66 percent (natural science courses) to 85 percent (health services courses), by subject area.

   c. A total of 2,292 credit/no-credit grades were given. These comprised about 3 percent of all grades this fall, compared to 4 percent in the previous semesters. The 280 "credit" and 252 "no-credit" grades given for registrants in transfer courses (general education courses numbered 100 and over) comprised 23 percent of all of the credit/no-credit grades given, but 1 percent of the grades given in transfer courses.

JC 770 168

d. A varying pattern for the two forms of non-punitive grades given by the colleges: the "W" and "N" grade designations.

(1) The percentage of "W" designations was 9 percent, compared to 10 percent last spring, and 15 percent in Fall 1974. (The data show the "W" rate declining at a rate of about 1 percent per semester.)

(2) "N" grades numbered 11,237 of which 6,213 (55%) were for registrants in transfer courses. The 6,213 "N" grade comprised 16 percent of the grades given in transfer courses. "N" grades have been increasing the last few semesters, from 11% to 14%.

2. The data, by college, show:

a. Average grades given ranged from 2.6 to 3.2.

b. Slightly lower percentages of A's and slightly greater percentages of B's, C's and D's were given at most of the campuses.

c. Slightly fewer credit/no-credit grades were given. However, there was an increase in "N" grades and no grades assigned.

d. Credits-earned rates ranged from 60 percent to 78 percent, by college.

Table III: Current GPRs by Major and Educational Objective

The current mean GPR of 2.84 noted for fall 1976 is the lowest in five semesters (2.87, fall 1975; 2.91, fall 1974). As in the past semesters, Liberal Arts students earned higher GPRs (2.84) than vocational education majors (2.79). Unclassified and special students earned the highest GPRs, probably due to the lighter credit loads they carry.

Summary

The data for fall 1976 show lower average grades, lower credits earned, fewer A's, W's and credit/no-credit grades compared to previous semesters. To what extent do they reflect the concerns expressed by numerous instructors about permissive grading practices?
